

Carson is a senior at Lee County High School. She has been a competition dancer at Dancers Workshop for 11 years, and absolutely loves being on stage and performing her heart out. She loves kids and has a lot of experience working with younger children. She has taught preschool dance classes, helped with dance summer camps, babysat, and helped look out for her 7 year old brother. Carson has always loved all things Disney and anything related to princesses, so she cannot wait to transform into one herself. She is looking forward to working with Wishes to see the smile on children's faces and most of all making their dream party come true!
