

Hallie Altman is a student at Lee County High School. She has both performance experience and experience working with children through her time as a gymnast. She has always adored watching the younger girls at the gym do what they love, and it makes her heart full being able to cheer them on. Her goal was always to be like their older sister and help build their confidence both inside and outside of the sport. It is so important to Hallie to remind younger children of their worth. She is so excited to be a part of wishes so that she can see that magic in the childrens' eyes when they see characters. Her whole life she has loved Disney and princesses, so she cannot wait to create childhood memories for kids that are similar to what was once created for her!
