

Ivette has an extensive background working with others. She has worked as a restaurant server for 8 years and always strives to make sure guests are happy with their experience. Children are Ivette's favorite type of people. She has 6 small cousins who she is very close with, and she has the best time with them! She babysat her cousin everyday during the pandemic and gained great experience finding ways to engage children. Ivette did the Disney College Program and loved seeing the princesses and characters around the parks and in shows. She is so excited to work for Wishes Character Company so she can now have that experience of being the character who makes so many people smile!
