

Lydia is currently a student at Appalachian State University. She has been a “Disney kid” her whole life, and she grew up loving every aspect of it. Lydia has always adored interacting with princesses in the parks, and is hoping to soon be a part of the Disney College Program. She worked at Chick Fil A, where she learned a great deal of customer service skills. She also babysits frequently and loves tapping into her inner kid while entertaining them. She has performed playing the guitar in two worship bands and cheerleading in high school. Lydia cannot wait to start performing for Wishes because she will have the opportunity to bring to life her favorite part of her childhood, for other people!
